President's Message

Who are the Half Century Trojans (HCTs)? We're a vibrant community of all USC alumni (including bachelor's, master's, doctoral and professional degree holders) who earned a bachelor's degree from any college or university at least 50 years ago. As caretakers of USC history and tradition, HCTs are uniquely positioned to promote the Trojan Spirit and strengthen the bonds that connect USC alumni lifelong and worldwide.

This mission is especially poignant today. As we face one of the greatest challenges in recent memory, we are reminded of the resilience and strength of our USC family. Trojans worldwide continue to give back, from serving as essential workers keeping their
communities healthy to agents of change working for equality and justice.

While programming and events in 2020-21 will be different from years past, we remain committed to creating dynamic engagement opportunities to help you stay connected with your alma mater and fellow Trojans. Though we can't be together in person, the Trojan Spirit is stronger than ever. We look forward to when we can safely come together in person and celebrate once more. In the meantime, read on for news on how to stay connected.

Take care and Fight On!

HCT Scholarships - A Trojan Family Legacy

HCTs strengthen USC’s legacy by sponsoring the Half Century Trojans Scholarship Program, which annually confers scholarships of $10,000 to descendants of HCTs. The scholarships are awarded to continuing USC students, based on academic achievement, leadership potential and community service. This year we presented scholarships to 22 exceptional students, representing a broad spectrum of disciplines, with each recipient receiving $10,000.

Here are some words of appreciation from recent HCT Scholarship recipients:

"I am a rising senior studying global health with minors in public relations and consumer behavior. I will also be pursuing a progressive degree in the Master of Health
Administration program through the Price School of Public Policy. My grandfather, Tsukasa Saneto, completed his degree at USC in 1949, five years after his release from the Japanese-American internment camps during WWII. For my family, my grandfather's USC degree held the key to re-starting his life and recovering from the turmoil of the war. Although my ojisan passed when I was a baby, receiving the Half Century Trojan scholarship allows me to feel connected with my family's history and celebrate my grandfather's accomplishments." — Justin Kawaguchi, Class of 2021 (Keck)

"From start to finish, my experience with the Half Century Trojans has been remarkable and extremely rewarding to my career aspirations and personal development. Being a graduating senior with a BS in human development and aging, I look forward to helping create a world where everyone can age with dignity, autonomy and retained individuality. I know that my studies at USC have prepared me to accomplish this, and I could not be more thankful to the Half Century Trojans for allowing me the financial leverage to pursue this passion in an incredibly important field. Four generations of my family are Trojans, and we all thank you so much for allowing me this privilege; you are truly a testament to the Trojan Family!" — Shannon Hennessy, Class of 2020 (Gerontology)
