More than 451,000 strong, the USC alumni community is much more than just the largest constituency in the Trojan Family. It is a powerful network that connects Trojans of all ages and backgrounds, lifelong and worldwide. During these unprecedented times, we continue to find strength by reaching out to our fellow Trojans and building community. These connections can make a positive difference in your life, personally and professionally.

Looking ahead, we are optimistic that we will soon be able to host in-person events once again, in adherence with best practices. As always, the USC Alumni Association is working to increase accessibility and promote inclusivity in our programming and events, so we all have more opportunities to strengthen our ties to USC and each other. Our new approach to engaging USC’s regional alumni communities makes it easier than ever to find Trojans near you, participate in local activities, and create your own events with fellow alumni. We have redesigned and upgraded our FightOnline portal, for easier access to our online community. And through The Trojan Network, USC’s free online networking platform, you can easily serve as a mentor to recent graduates or reach out to Trojans in your field for professional advice and support. We hope you will join us in celebrating USC’s distinguished traditions and in creating new ones.

On behalf of USC and the USC Alumni Association, we thank you for all that you have done, and continue to do, in support of our alma mater.

Fight On!
